## Education

---

### Bowling Green State University

GPA: 4.0/4.0

Computer Science

### Frontend Developer Bootcamp

Map 2022 – Feb 2023

Frontend Simplified

## Experience

---

### Frontend Developer Internship | [Certificate](#)

Sep 2022 – Feb 2023

Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript, and React single-page application into an interactive user interface using animations, transitions, and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination, and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

### Freelance Frontend Developer

July 2022 – Current

Michael Telakowicz Design

- Built user interfaces for clients using HTML, CSS, JavaScript, and React
- Worked with clients to meet their needs

## Projects

---

### Video Game eCommerce Store | [Website](#) | [GitHub](#)

- Created a fully responsive eCommerce site for video games with a search system, dynamic rendering from API data, and storing user data.

### Twitter Clone | [Website](#) | [GitHub](#)

- Developed a social media app that allows users to create posts that are saved in Firebase Storage and then dynamically loaded for every user to see.

### Google Clone | [Website](#) | [GitHub](#)

- Integrated Google's API to create a real-world search engine to sort News, Images, and Videos.

### LinkedIn Clone | [Website](#) | [GitHub](#)

- Built a social media app that uses Firebase Authentication and Storage to give each user an account where they may upload videos through React Video Player.

### Online Dictionary | [Website](#) | [GitHub](#)

- Designed an online dictionary that fetches data from API by using user-provided data.
