

# Michael Telakowicz

[michael@mtelakowicz.com](mailto:michael@mtelakowicz.com) | [mtelakowicz.com](https://mtelakowicz.com) | 5672037239

## Education

---

**Bowling Green State University**  
Computer Science

**GPA: 4.0/4.0**

**Frontend Developer Bootcamp**  
Frontend Simplified

**July 2022 – Feb 2023**

## Experience

---

**Frontend Developer Internship** | [Certificate](#)  
Frontend Simplified

**Sep 2022 – Feb 2023**

- Transformed a completely static HTML, CSS, JavaScript, and React single-page application into an interactive user interface using animations, transitions, and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination, and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

**Freelance Frontend Developer**  
Michael Telakowicz Design

**July 2022 – Current**

- Built websites that meet my client's needs by using HTML, CSS, JavaScript, and React to create a professional design to impress users

## Projects

---

**Space Model** | [Website](#) | [GitHub](#)

- Designed a model of the Milky Way Galaxy using the Three.js framework that integrated Tween.js to transition smoothly between planets and fetched from an API to display a description of each planet.

**Video Game eCommerce Store** | [Website](#) | [GitHub](#)

- Created a fully responsive eCommerce site for video games with a search system, dynamic rendering from API data, and storing user data.

**Twitter Clone** | [Website](#) | [GitHub](#)

- Developed a social media app that allows users to create posts that are saved in Firebase Storage and then dynamically loaded for other users to see.

**Google Clone** | [Website](#) | [GitHub](#)

- Integrated Google's API to create a real-world search engine to sort News, Images, and Videos by user-provided search.

**Online Dictionary** | [Website](#) | [GitHub](#)

- Built an online dictionary that fetches data from API by using user-provided data.

## Technical Skills

---

**Relevant Languages:** HTML5 | CSS3 (+ SCSS, BEM) | JavaScript ES6+ | Typescript | Python | C++

**Frameworks:** React (+ hooks) | Next.js | Three.js | Material-UI | Redux

**Technology:** NPM | Git | Yarn | React dev tools | Firebase v9 | GitHub
